

What's in the Box:

+

Ambir Scanner* + 6' (1.8m) USB Cable

1 Cleaning Sheet

For best results, add a few drops of alcohol onto the cleaning sheet.

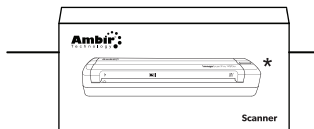

1 Calibration Sheet

Please keep your calibration sheet as the scanner requires periodic calibration.

* Scanner shown(ImageScan Pro[®] 490ix) is for illustrative purposes only, your scanner may be different.

Getting Started:

- 1 Review the contents of your scanner box. Box contents are listed on the other side.

- 2 Download required drivers and/or software from:
www.ambir.com/ambir-drivers

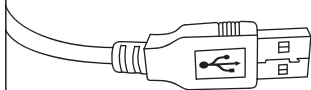

Locate your driver by using the product name.

- 3 Double click your file(s) to begin the install process.

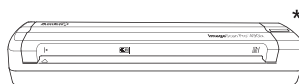

Follow software prompts.

- 4 Plug-in the scanner to your computer to load the driver.

- 5 Your Ambir scanner is now ready to use.

Please Note:

Your Ambir scanner arrives to you pre-calibrated. Use your included sheet for future calibration.
